IFSE

MOTTO

**The Institute of Fire and Safety Engineering (IFSE)
stands with its pride of dedication to act for :**

To make one Safe, Secure and healthfully Survived.

**To ensure Safety, Security and Survival for all life and
property from Fire / Accidents / Natural Calamities /
Occupational Hazards / Environmental Degradation
and other manmade disasters.**

**The main objective of the Institute is to impart
training to young Indians to enable them to serve the
Society and Industry with Moral Values.**

Director's message

Dear Friends,

Fire service is one of the most essential services of an organized society.

Fire defines the essence of life, yet it causes nearly 1000000 deaths every year, in our country it is approximately 100000. The national average of availability of trained manpower for fire fighting and disaster management in our country scores a dismal low.

With the increasing industrialization and growing dependence on electricity, manmade fire is creating havoc for safety management experts. There lies a big gap in requirement of professionals needed for fire safety and disaster management and the available manpower. Beside the head count gap there is quantum technological advancement in the methods of fire safety and its prevention.

Since 1956, with the establishment of 'National Fire Service College' Nagpur is on the forefront of training fire fighters and is emerging as the fire training capital of the country. Nagpur has produced some of the distinguished fire fighters who went on to become the chief architects of fire safety establishment of current times. Institute of Fire and Safety Engineering under the aegis of Shri Arvind Singh Bahuuddeshiya Shikshan Sanstha, Nagpur has been working in this field. It has trained and placed more than thousands of professionals upto now.

At IFSE we are driven by the nobility and "THE LAST HOPE" of this distinct profession. It is as noble as fighting with the enemy to save the landmass. Fire fighters on the mission are the last hope. If your profession involves saving life and it pays you for your livelihood it is same as that of army personnel. With the modern equipment and extensive use of computer based stimulation fire fighting is fast becoming less hazardous. The loss of life and property because of the fire fighters on their missions has decreased substantially during the last decade.

IFSE is affiliated with the three leading academic and technical bodies, these are MSBTE (Maharashtra State Board of Technical Education), YCMOU (Yashwantrao Chavan Maharashtra Open University), PTU (Punjab Technical University). These are NAAC accredited UGC approved universities, the array of courses available at IFSE through these universities are well researched and widely accepted in the industry and Government Organizations.

IFSE has attained AN ISO 9001 : 2008 & 14001 : 2004 Certification and it is the corporate member of National Safety Council.

Institution provides necessary infrastructure and a team of highly qualified and motivated faculty / guest lecturers all under one roof for the student community. They present their skills according to BIS/NFPA/UK comparative standards to our trainees / officers along with high technology and different modern approach regarding industrial HSE management systems.

We have an excellent placement team operating out of all major cities in India and abroad.

Our team would like to continue with the endeavour of providing continuous value system in Fire, Industrial Safety and Disaster Management field.

I would like to welcome you at the IFSE Nagpur, the world of Fire and Safety training institute.

Dr. Kumar Arvind

OUR WORLD

Profile

The Institute of Fire and Safety Engineering, Nagpur is managed by Shri Arvind Singh Bahuuddeshiya Shikshan Sanstha, Nagpur (Reg. No. F-22242). This has been working in the field of education, emergency aid, training, consultancy, equipment and maintenance. This is an autonomous institute managed by a group of well experienced fire personnel. It is situated about 18 Kms. away from the Nagpur Railway Station. The atmosphere of this institute is eco-friendly with ultra modern facilities and modern fire fighting equipment and training. This is the only institute in India which is running those kinds of course which can cater to the needs of the modern industry and fire department to produce right kind of trained fire and safety personnel.

Aim

Fire and Safety services in India at present are backward to a considerable extent. While few metropolitan cities are equipped with modern fire fighting machines and well trained personnel, in the innumerable other cities and towns, inefficient fire and safety personnel have been assigned with the responsibility of maintaining fire protection arrangements and fighting any possible outbreak of fire.

India is still in dearth of trained fire personnel. In this regard, Institute of Fire and Safety Engineering, Nagpur, has taken bold step to train the people and make them aware of fire and safety with modern fire fighting equipments so that they may cope with the modern requirement of the industry and fire department.

In case of fire and other disasters, trained personnel will be in a position to detect fire risks in the cities and at various industries and handle the emergency situations efficiently and smoothly.

Present Scenario

In western countries, well trained Fire -Safety personnel are available, although, they are very few in number. India has large manpower resources; it can be better exploited and utilized. In India, there is only one Fire College, which is only for the govt. employees and the yearly pass out number is less than 75 personnel. It is estimated that India will need 5 lac well trained fire and safety personnel every year. To cater to the demand of trained fire safety personnel, a good institution is required which can supply the personnel in fire as well as in safety field.

Institution of Fire and Safety Engineering has initiated the challenge by setting up training institution for fire and safety to cope with the needs of emergencies in India and abroad. It is estimated that only 0.2% of fire/safety trained personnel are available of demand in India.

Knowledge of Fire, Safety, Prevention, Protection, Fire Fighting Process, Environment and Disaster Preparedness are very important to prevent loss of life and property. Thus specialized training and role of the fire fighting agencies/departments are very important. Well trained manpower in this area is the need.

Disaster Awareness

At the time of Vulnerability or Disaster like Flood, Earthquake, Volcanic Eruption, Land Slides and Technological Disaster a Student will be able to organize and facilitate timely and effective Rescue, Relief and Rehabilitation operations, setting up disaster relief machinery, formulation of emergency relief plans, training of specific groups to undertake rescue and relief.

It is becoming increasingly evident now that relatively smaller disaster preparedness can save thousands of lives and vital economic assets as well as reduce the cost of overall relief assistance.

We have disaster management plan some of which have been carried out by govt., some by community based organization and some by institutions like us.

Achievements

- Pioneer in Developing Training and Teaching Aids in the Field of Fire, Safety and Environment.
- Educating Masses of Every Category.
- Manpower Supply Consultancy.
- Providing Training and Other Services.
- Implementing power Brigade Technology to Common Person to Build Strong Nation.
- Assist in Disaster Management.
- Trained More than 2000 Persons Presently Serving in the Field of Fire, Safety, security, HSE in India and abroad.
- Trained Railway Employees Like – Mechanical/Electrical Engineer, Loco Pilot, Cabin Supervisor, Workshop Person, RPF Staff.
- Designed and Recommendation of Automatic Detection And Extinguishing installation system inside the railway Engine Units.
- Trained Navy Fire Fighters in Modern Fire Suppression Systems and Techniques.
Specially Assigned by Railways to Investigate the Actual Cause of Fire at Kota Railway Station Near Bhandara, Nagpur, in their Automatic Signaling Relay Centre.
- Assisted in Extinction of Gorewada Forest Fires in Series of Three Days, and the Task was Honoured by Chief Conservator of Forest.
- Imparted Training to all BPCL Retail Outlet Employees In Vidarbha on First Aid Fire Fighting Techniques.
- Appointed as an Expert in curriculum Development Program 2007 by M.S.B.T.E regarding, Fire, safety, security courses.
- Recognized By Nagpur Divisional Board, Nagpur for Inspection, Maintenance, Training and Supply of First Aid Fire Fighting Equipment.
- Recognized by Local Fire and Emergency Services of Municipal Corporation on assisting their different tasks.
- Fire Safety Awareness Training Program as well as Preparation and Implementation of EVACUATION PLAN for Students, Teachers Staff of different Schools

Demonstration of Fire Fighting at IFSE

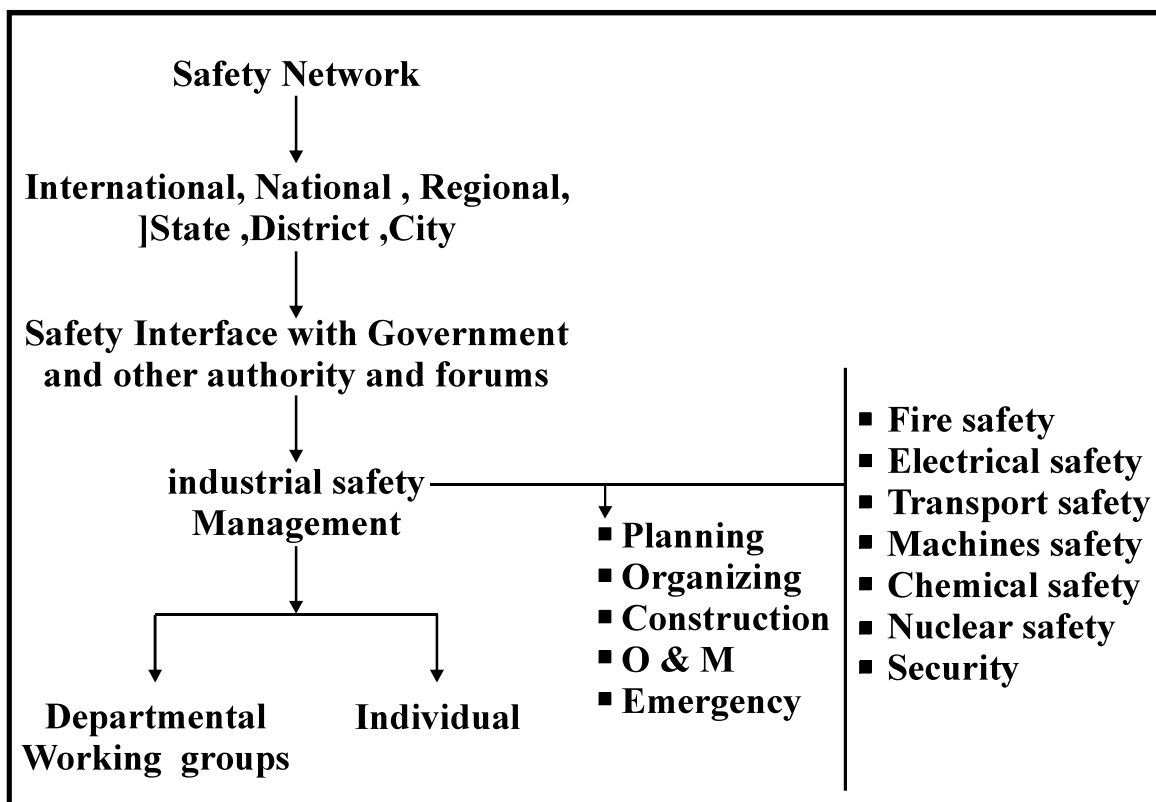

Safety Management

Life and health are most precious. "Safety" denotes continuing and healthful living with out injury. Safety is freedom from harm .The word safety also refers to the precautions people take to prevent accidents, harm ,danger, damage, loss, and air/water/envirom pollution .Safety also deals with improvements in working conditions for better health . Safety is important to everyone and at every stage of activities and at all times Safety Comes First.

Safety is necessary everywhere and at all times ,in homes, on roads , in offices, public places , while traveling , in working in industry.

Industry has more hazardous situations and activities than home or an office. Many persons work as a team in an industry and safety is of interest to every individual , group of individuals and the total organization . Every individual in the society and an industrial organization have obligations to organise and establish safety disciplines . Safety Management is an essential and important part of industrial management.

Management is responsible to provide safe working condition and individuals safety . Lapse on the part of management and individuals may result in an accident or disaster. so knowing this fact IFSE provides practical knowledge of fire fighting to its trainees.

Transforming Persona

Let us not forget that all human activities are powered by latent strength and viable self-confidence.

Hence, the institute specifically engages constant session of Prayers, Yoga & Meditation for its course-inmates.

All aforesaid mind booster exercises ultimately help the individuals in respect of their personality development, concentration and successful function in life as well as society.

Physical Training

*'Time is precious, get to work in given time in fire service is most important.
So, physical and mental alertness is utmost requirement of this service'.*

Training in fire and safety field which is imparting to the trainees a combination of practical and theoretical knowledge of this field, and get experience to work in emergencies without losing patience and time. To work in this condition physical and mental alertness can be achieved, only by rigorous physical training such as - various Drills and disciplinary Parades.

Getting this physical training the trainees learn, how to work in emergencies to save man kind and property from fire.

IFSE Trainees Operating Various Types of Fire Extinguishers

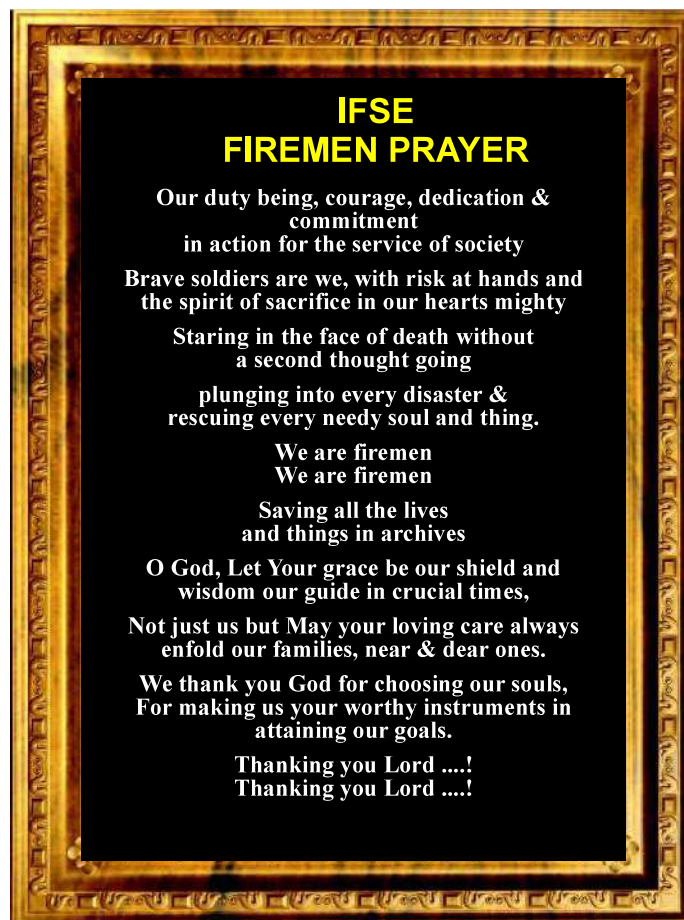

Fire Fighting Techniques

Training to become a fire fighter is a challenging task. The art and science of extinguishing fire is much more complex than most people imagine. You will be challenged both physically and mentally during this course. You must keep your body in excellent condition so you can complete your assignments, and you must remain mentally alert to cope with the various conditions you will encounter. Fire fighter training will expand your understanding of fire suppression, the activities involved in controlling and extinguishing fire.

The fire service sector is attracting more and more attention by the passage of time. With a view to this vital aspect, our institution has undertaken the task of upgrading the qualitative functioning of fire personnel by imparting them standard training.

IFSE Trainees Demonstrating Fireman - Lift Rescue techniques

DAILY ROUTINE (General)

Sr. No.	Time	Activity
1	6.00am - 7.00am	"Prathana", P.T. and Drills
2	8.30am -9. 15am	Breakfast
3	9.45am	Fall in for National Anthem
4	10.00am- 1.00pm	Theory Classes
5	1.00pm -2.30pm	Lunch Time
6	2.55pm	Fall in for Ground Practical
7	3.00pm - 5.00pm	Ground Practical activities
8	5.00pm	Dismissal of Parade
9	5.15pm - 6.15pm	Sports
10	6.30pm	Evening Roll Call
11	6.45pm - 8.00pm	Study Time
12	8.10pm -9.30pm	Dinner
13	10.00pm	Night Roll Call

Note:

1. Routine may be changed according to the seasons and climatic conditions.
2. Special Duties and tasks are allotted to all students (in turn) in crews during training like- Turn-out, inspection, night duties etc.

OTHER ACTIVITIES

Sr. No.	Activities	Months
1.	Ceremonial Parade - Independence day	August
2.	Shri Ganesh Pooja	September
3.	Visit to Local Fire Brigade	November
4.	Sports week	December
5.	New Year Eve	December
6.	Ceremonial Parade - Republic Day	January
7.	Shri Saraswati Pooja	February
8.	Industrial Visit	March
9.	National Fire Service Day	April
10.	Campus Interviews	April - May
11.	Farewell	May

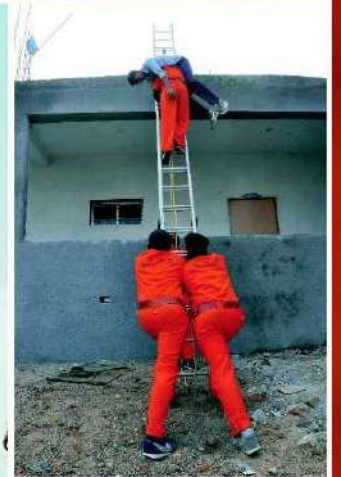

IFSE Trainees Receiving Expertise on Fire Tenders

IFSE Trainees Performing Hose Drills and Hydrant Drills

Trainees of IFSE Demonstrating Ladder Drills and Rescue

SKILLS ACHIEVED

After Completion of Framed Courses by us, the Student will Achieve Skills like -

MOTOR SKILLS

1. Knowledge of preventive and protective measures.
2. Identification of when and what equipment is to be used as per events.
3. Operation of Fire machinery and Appliances.
4. Diagnosis of the faults.
5. Designing and installation of Fire/Safety Systems
6. Repair and Maintenance of Equipment and Appliances.
7. Fire, Safety, Health, Environment Degradation Training

GENERAL SKILLS

1. Able to understand the layout of building, plant building and machinery.
2. Suggest escape routes, emergency exits, storage of hazardous materials as per rule.
3. Occupational Diseases and Health
4. Diagnose the cause of Disaster/ Fire, Fire risks.
5. Identify the Pollution Risk.
6. Preparation of Reports.
7. Fire and Safety Audits

Eminent Faculty and Knowledge Bank-Library of IFSE

EMINENT FACULTY

Keeping abreast in this contemporary world of cut throat competitions in all fields of knowledge, the IFSE aims to create a person having complete practical and theoretical knowledge of fire and safety to stop or minimize the fire incidents, and other kinds of disasters in our society, industries and the whole nation.

To fulfill this purpose and make a well trained fire / safety officer IFSE has a committed team of eminent faculty in this specialized field. The faculty are appointed based on outstanding performance, leadership qualities and contribution to concerned discipline or profession with extraordinary expertise and vast experience. Appointment of the eminent faculty at the IFSE represents a significant honour.

IFSE also invites distinguished industry experts working in fire/safety field to guide and make the trainees aware of the latest skills and practical knowledge in present scenario.

IFSE aims at creating All round development of personality of the trainees - professionally and socially.

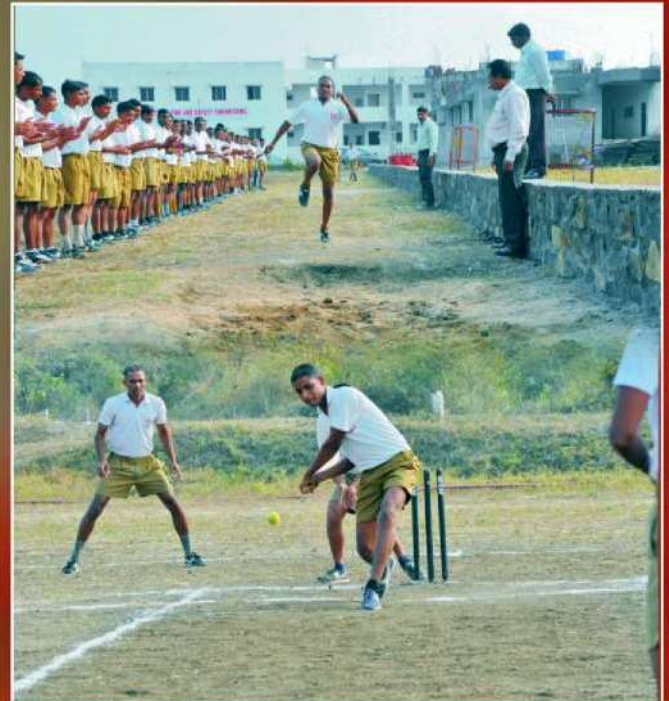

Therefore, IFSE strongly believes in its spirited faculty members capacity and their experience in concerned field to train and motivate the students towards this risky but powerful job.

KNOWLEDGE BANK

"Library is fountain-head to knowledge"

The Institute provides well equipped library and reference division. The collection of reference material is such that it can prove helpful even in research oriented work on the subject like fire and correlated aspects. One can find innumerable writings by Indian as well as foreign authors.

Sports Activities and Cultural Activities at IFSE

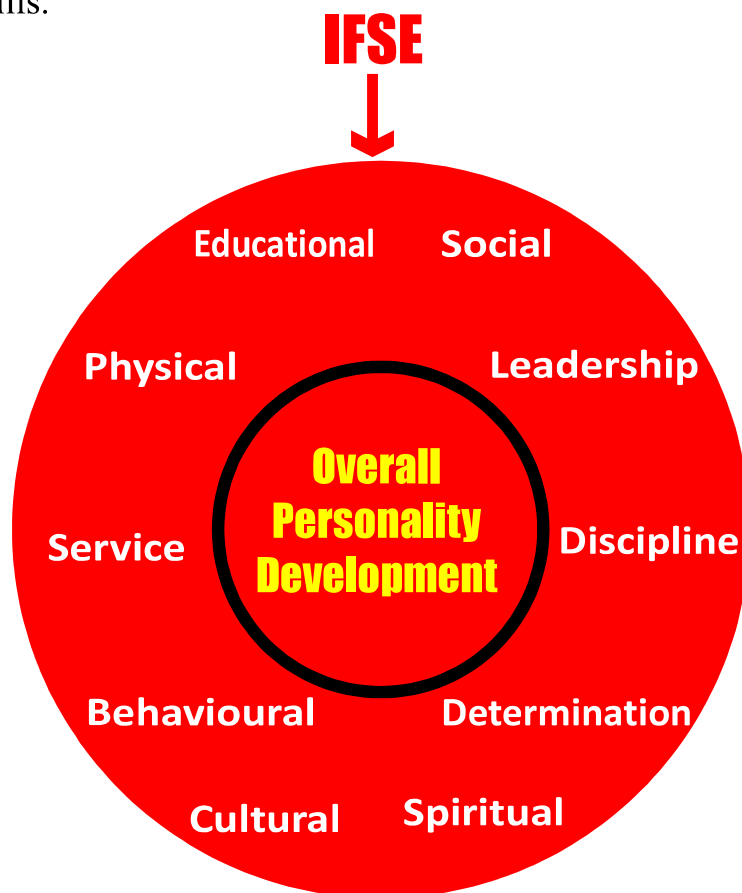

Cultural Wisdom

National integration breaking barriers - intellectual, emotional and social interaction through celebration of various festivals at IFSE.

Human being is a complex entity, dangling between inner and outer exhibition of expression. Cultural activities provide opportunities to individuals to exhibit their hidden talents, and this is how they shape their personality. The institute provides ample opportunities on this count, for its inmates.

Sports Activities

Sports are regarded as most essential physical drills for the nourishment of healthy mind and healthy body. sports not only provide fitness to body but also entertain the performers in terms of their healthy personality. The institute therefore takes care of physical training and sports activities of all sorts as needed for the overall development of fire cadets Keeping in view of their functional skills.

Ceremonial Parade at IFSE

FACILITIES

- Availability of large Training Ground
- Pleasant Environment with strong educational support.
- Regular Technical visits to different industries.
- Highly qualified, skilled and experienced eminent faculty.
- To develop Managerial / Leadership ability analytical & communication skill through personality development classes.
- To increase memory power through Prayers, Yoga & Meditation classes .
- Latest equipments / Appliances with modern Techniques.
- Library - Vast and varied range of Fire Engineering Books.
- Lodging & Boarding.
- Uniforms.
- Sports Activities.
- Medical Facilities.
- Cultural activities.
- Live Demonstration & Performance.
- Film Show on Fire Prevention, Safety & Rescue.
- 100% Job Assistance.

Fire Fighting Equipment of IFSE

MATERIAL PROVIDED

Sr. No	Particular	Qty.
1.	Khakhi Uniform (Shirt and Trouser)	1 Nos
2.	Dangari (Drill dress / Overall)	1 Nos
3.	PT dress (Half Pant / T-Shirt)	1 Nos
4.	Peak Cap (Khakhi)	1 Nos
5.	Barret Cap (Blue / Maroon)	1 Nos
6.	Belt (brown)	1 Nos
7.	Wellington with whistle (Khakhi)	1 Nos
8.	Shoulder & Belt Batches (Steel)	1 Set
9.	Brown leather shoe	1 Pair
10.	White canvas shoes	1 Pair
11.	Gumboots	1Pair
12.	Socks White &Khakhi	1 each
13.	I - Card	1 Nos.
14.	Recreation Facility	As per
15.	Sports Material	Requirement

CHARGEABLE MATERIALS (it is mandatory)

For each individual

1. Practical material
2. Practical Journals
3. Assignment Registers
4. Locker will be provided on rent (one time) basis for keeping valuables of Student.

PROGRAM DETAILS

FOLLOWING GOVT. RECOGNIZED COURSES ARE RUN BY THE I.F.S.E.

1. Advanced Diploma in Industrial Safety (IT)

Eligibility Criteria

- Duration : 1 Year
- Any Science Graduate /Degree / Diploma in Engineering / Technology or its Equivalent from a recognized Statutory University / Board Advance Diploma in Fire Safety &
- Industrial Environmental Engineering (FA)/ Post Diploma in Fire Engineering (FI)/
- Diploma in Fire Service Engineering (FR)/ Advance Diploma in Fire Safety Engineering (FS) / Advance Diploma in Industrial Safety & Security Management (FF) of MSBTE.

2. Advanced Diploma in Fire Safety Engineering (FS)

Eligibility Criteria

- Duration : 1 Year
- The Candidate must have passed the Diploma in Engg. / Technology of MSBTE or its Equivalent or
- Degree in Engineering or Technology or Science from any recognized University / Institute or passed an
- Degree with minimum 2 Yr. of Experiences in Field of Fire Services, OR
- Candidate must have passed 2 Yrs. Course in Diploma in Fire Service Engg. Of MSBTE. (FR)

3. Advance Diploma in Industrial Safety and Security Management (FF)

Eligibility Criteria

- Duration : 1 Year
- Passed Diploma in Engg. Awarded by MSBTE /Degree in Engg. OR
- Any Graduate from any recognized University /Institute/ Board in Maharashtra OR its Equivalent with min. 40% marks OR
- Candidate must have passed 2 years course in Diploma in Fire Service Engg. of MSBTE (FR)

4. Diploma in Fire Service Engineering (FR)- 2 Years

Eligibility Criteria

- Duration : 2 Year
- Passed H.S.C. Examination of M. S. Board of Secondary & higher Secondary Education, OR its Equivalent OR
- Passed any trade of ITI of the duration of 2 years

5. PG Diploma in Fire - Safety and Hazard Management

Eligibility Criteria

- Duration : 1 Year
- Graduation in Any Stream.

6. B. Sc. Fire Safety and Hazard Management

Eligibility Criteria

- Duration : 3 Year
- 10+2 Examination in Science Stream from a Recognized Board.

7. Diploma in Fire-Safety and Hazard Managment

Eligibility Criteria

- Duration : 1 Year
- HSSC in Any Stream with Recognized Board.

8. Diploma in Fire and Safety Engineering Management (P/73)

Eligibility Criteria

- Duration : 1 Year
- HSSC in Any Stream with Recognized Board.

9. Certificate in Fire - Safety Engineering Management (C/97)

Eligibility Criteria

- Duration : 6 Months
- SSC Passed with Recognized Board.

Award Ceremony at IFSE

Kumar Arvind
DIRECTOR
I.F.S.E., NAGPUR

PLACEMENT CELL

The Institute Provides 100% Job Assistance to the Students.

IFSE provides 100% job assistance to its trainees. It has a regular campus recruitment cell and is in constant touch with various industries, fire and safety departments in India as well as abroad. So far the trainees have obtained 100% job placement.

The IFSE is indeed proud that its trained personnel are well placed as fire / safety officers in departments like Ordnance Factory, Local Fire Brigade, Industries, Refinery, Airport, Power Plants, Cement Plants, Malls, Electricity Board, Different construction Companies, Automobile engineering, Various Oil and Gas industries, Chemical Plants, and Fertilizer Industries etc. In abroad especially in Middle East and South East countries there is a great opportunity in this field, and many of our students are already there

Besides the above there is also scope for the trainees in the fields such as Government Sectors, like Railways, Nuclear Plants, Heavy engineering, Semi. Government Sectors etc. Apart from this successful trained personnel can also work as an independent fire and safety consultant.

INSTRUCTIONS FOR STUDENTS

We build personal rapport with every student to over come his problem in learning the art of Fire and Safety Techniques. We create such a situation that allows relatively relaxed discipline & a personal rapport of each student. We believe in positive approach to discipline. We see discipline as a means of helping student to learn acceptable behaviour according to the levels of development; we reserve the right tot initiate the procedure for dismissal of the candidate.

Those students, who feel that discipline is a punishment , need not take troubles to apply for admission at the Institute. Students should follow the following instruction:

1. It is imperative that the students strictly adhere to the day of opening and closing of each term during the academic year.
2. All students are responsible to the Principal for their conduct in the institute premises and in public.
3. Liquor consumption, smoking, chewing tobacco and other such elements are strictly prohibited in the Institute's premises.
4. Students should form a habit of looking in to the notices on the notice board on a daily basis without fail.
5. Students should take particular care to be punctual. Students who are late would not be allowed in the class.
6. Regularity is of utmost importance and thus absence at even a single lecture will be considered as absence for the day.
7. Students should have attended at least 80% of each theory and practical classes , failing this will debar from the examination.
8. The principal is competent to condone deficiency in attendance as per the rules.
9. All tests , theory and practical examinations are compulsory and every student has to appear for these examinations .
10. The candidate should have carried out the Project Work / Term Work prescribed for the course to the satisfaction of the Principal and head of the institution and should be certified as fit for appearing for the examination.
11. Proper clearance from respective department towards the progress,

conduct, character, etc. will be essential for appearing in the examination.

12. In all cases of absence an application duly endorsed by the parents / local guardian must be submitted to the office of the institute immediately. If absence is on medical ground, certificate from the registered medical practitioner must be attached with application along with the fitness certificate. In doubtful cases, the student will be referred to the competent medical practitioner as per the choice of the Institute's and the report produced by the same will be treated as final.
13. Student will have to pay for the replacement or repair of the Institute's property loss or damage caused by them through carelessness or improper use.
14. The Institute's authorities cannot hold themselves responsible or liable for any loss of belongings of the students. However, any articles found in the institute premises should be handed over in the Institute's office so that steps can be initiated towards returning of the same to the rightful owner.
15. The institute office should be informed in writing of any change in address of the students with immediate effect.
16. Insubordination and rude language or misconduct is sufficient reasons for the suspension of the student. The student must remember that respect is the reciprocal of respect.
17. The student should not participate in any political or antisocial activities; otherwise the student will be liable to be expelled from the institute.
18. The student should help in maintaining the building and campus clean and tidy.
19. The management reserves to itself the right to make additions or alterations to the existing rules, working hours, time-table and mode of training as may be deemed necessary from time to time. The students shall be required to abide by the rules that are in vogue and that may be enforced in future from time to time.
20. Fees once paid are neither refundable nor transferable on any grounds. Institute reserves the right to increase or decrease all fees and charge, as well as add or delete times of expenses without advance notice as circumstance in the judgment of the administration may require.

STUDENT RESPONSIBILITY

1. Students enrolled at institute are expected to conduct themselves properly at all times. They are expected to observe standards of behavior and integrity that will reflect favorably upon themselves, their families and the institute.
2. They are expected to abide by the laws of the city, state and nation, and by all rules and regulations of the institute.
3. Accordingly, any student who demonstrates an unwillingness to adjust to the rules and regulations that are prescribed or that may be prescribed to govern the student body will be placed on probation, suspended or expelled from the institution.
4. Each student is subjected to official regulations governing student's activity and student behaviour. Furthermore, it is the responsibility of each student to adhere to the principles of academic integrity.
5. Academic integrity means that a student is honest with him, fellow students, instructors, and the Institute in matters concerning his educational endeavours.
6. Thus a student should not falsely claim the work of another as one's own, or misrepresent him so that the measures of one's academic performance do not reflect his own work or personal knowledge.
7. If there are reasonable grounds to believe that a student has disregarded the regulations or student responsibilities, he may be disciplined. Such discipline may include suspension or expulsion.

Terms & Conditions

1. *Though the admissions are made on Physical / Medical / Educational Qualification basis the management reserves its right to reject any application Immediately or later without assigning any reasons.*
2. *The fees will neither be refunded for any reason nor can it is transferred to any other person*
3. *Final Examination Hall Ticket will be given only after clearing all fees and dues.*
4. *The management reserves the right to rusticate any student for misbehaviour with staff or students.*
5. *No refund of fees will be made in any of the cases of rustication of the student by the management.*
6. *The original certificates submitted at the time of admission to the institute will not be given back upto the time of completion of course.*
7. *The management reserve the right to recover any damages caused to the equipment and property of the institute or the industry where the student is sent for training.*
8. *Admission is not transferable.*
9. *Degree / Diploma / Certificate will be issued only after satisfactory completion of all formalities required as per university rules and regulations.*

TERMINATION GROUNDS

1. When his conduct is unsatisfactory.
2. When his ability to do his practical work proves unsatisfactory.
3. The academic representative will have power to terminate a student on grounds of misconduct, poor academic performance, etc.
4. When damage is caused to Institute property deliberately.
5. When payment of fees and dues are not made within the prescribed period.
6. When the student is found participating in agitation, political activities or acts prejudicial to the institute.
7. When his health conditions are unsatisfactory.
8. When suitable response is not forthcoming from his parent / guardian to communication issued by the institute or when parent / guardian withdraws in writing, the surety furnished for the student.
9. Students will be responsible individually or collectively (as the case may be) for any loss or damage to the property of the institute.
10. Any student indulging in Anti / Government / National or Anti-Institute propaganda will be expelled from the Institute Immediately and he will have no claim on fees paid by him.
11. If any information furnished in the application is found to be incorrect.
12. When his activities are found detrimental to the interest of the institute staff and other students.
13. If found addicted to alcohol or drugs or taking part in gambling or any other immoral acts.
14. When found engaged in unhealthy propaganda against Government, Institute and staff.
